The 9th edition of the conference is organised by the Department of Building Theory, Faculty of Architecture, Czech Technical University in Prague with the financial support of the Czech Technical University in Prague.

Cities for AI, Cities for People?

22. 4. 2026
14.00–17.00
CAMP Prague

A policy and research dialog of European experts that should discuss: How will the AI-driven trends change how we live, work and move in cities and metropolitan regions? How shall planners, urban designers and real estate managers plan to adequately respond to these changes?

Speakers include:

Federico Cugurullo /IT/

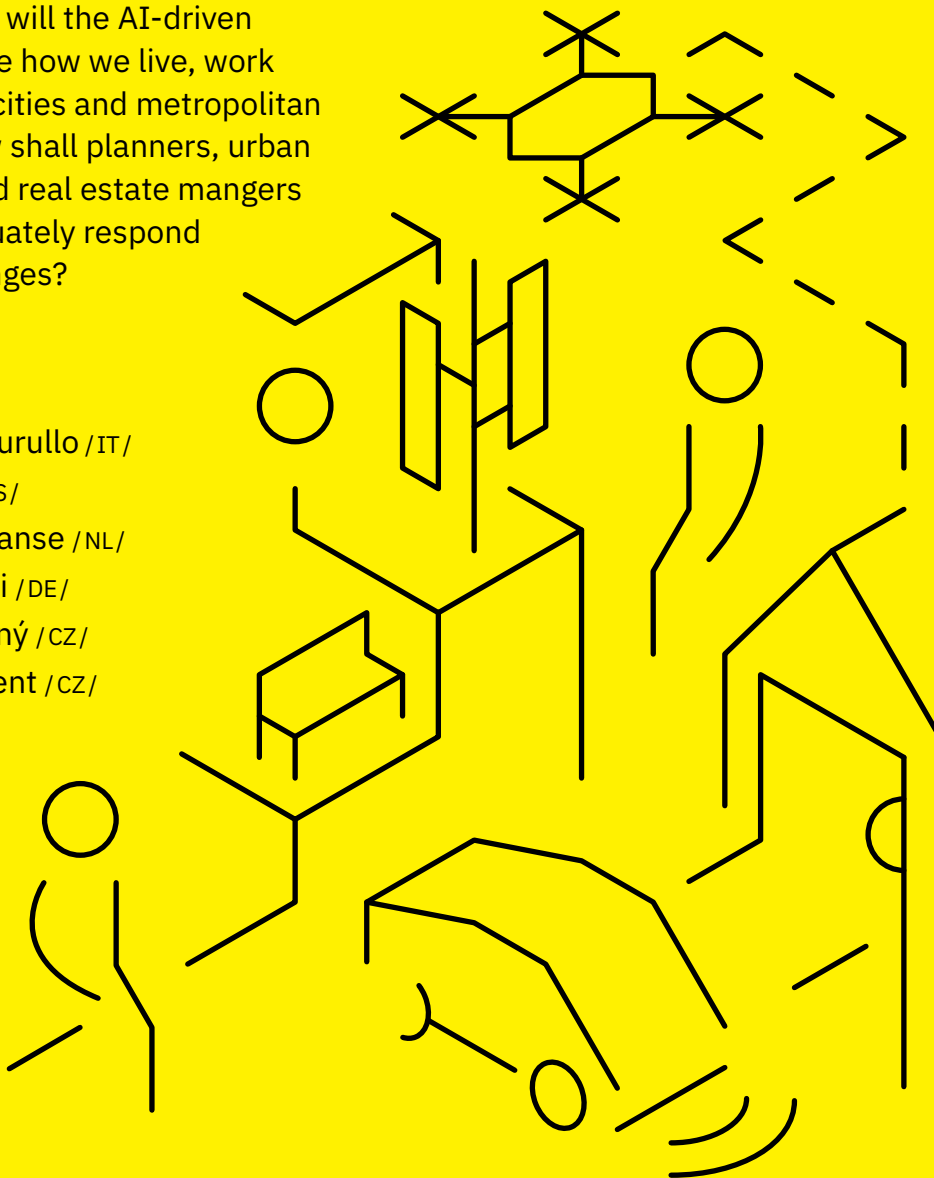

Nico Larco /US/

Kees Christiaanse /NL/

Mark Michaeli /DE/

Václav Novotný /CZ/

Vladan Klement /CZ/
